General Washing Instructions

- Inspect your washer, dryer and iron for areas or objects that may cause damage or snagging.
- Shake out all linens prior to washing. Remove any excess food, candle wax, skirt clips etc. Pre-treat any stains with desired stain remover or de-greaser. Test stain remover before use.
- Wash whites alone and dark colors separately.
- Wash like fabrics together. Do not mix fabrics.
- Do not overload machines.
- To remove wrinkles from polyester materials – Tumble dry warm. Once the linens are dry, leave them in the dryer without heat until they are room temperature. Remove one at a time and fold while the rest are still tumbling.
- When trying new laundering processes or fabrics, sample the process on a single cloth (old or damaged if available) first prior to washing a full load to avoid damage to an entire load.
